

Ms. Aisling McKeon worked for College Works Painting this summer 2009 and was the Supervisor of a staff of young painters who painted our home.

From the very beginning we felt that Aisling was very thorough in her explanation of what products were being offered and the choices we had to choose from. She was very concerned about keeping the communication open between herself and us. She is an extremely hard working individual and showed much dependability on the job.

We feel that she would be the kind of employee any company would want to have on their team because of the strong character traits she demonstrated to us.

Sincerely,

Chris & Pete Kunk
