

August 29, 2009

Dear Sir or Madam:

Chris Darby worked for us as part of the College Works Painting program. Chris was our single point of contact for this work and did an excellent job. We are in the process of renovating our home and Chris did a very thorough job of understanding our needs and explaining the entire process. He answered all of our questions and was always very prompt about returning phone calls. He successfully managed the project and completed it in a timely fashion, even though there were some unexpected changes (i.e. the weather) along the way.

Chris definitely shows the leadership and teamwork skills necessary for work in the professional world. He is also very meticulous and shows a great attention to detail. He treated our project as if it were his own home. He has been the most pleasant contractor to work with and I would recommend Chris and College Works Painting to anyone looking for an excellent painter.

I know that Chris is pursuing a career in accounting and I believe that he has the necessary professional and managerial skills to excel in his professional career. He is a very dedicated to performing an excellent job and consistently went above and beyond in order to make sure the job was done correctly and to our satisfaction. I would highly recommend him in the future.

Sincerely,

Brooke & Nathan Woods
